

64MM SHAFTWALL CH-STUD

CH6455, CH6490-45, CH10255, CH10290-55

PRODUCT DESCRIPTION

The Shaftwall system is the ideal solution for elevator shafts, stairwells and service ducting. Studco CH Studs are designed for Shaftwall installations where access is only available outside of the shaft. These are used throughout the wall system, in conjunction with starter E-Studs, J-Track deflection head tracks and bottom J-Track. Available in 64mm and 102mm widths in 0.55BMT, 0.8BMT and 0.9BMT.

FEATURES

- Screw and adhesive fixed
- Enhanced strength making them tougher, safer and more reliable for load bearing capacities.
- Suitable for lift shafts, stairwells and service duct applications.
- Acoustic and fire tested.
- Manufactured in Australia from high quality, Australian steel.

INSTALLATION

- Contact Studco's technical team for custom solutions on 1300 255 255 or email techadvice@studcosystems.com.au

APPLICATION

Studco Ch-Studs are installed throughout the Studco Shaftwall Systems in lift shaft, stairwell and service duct applications where access is only available outside of the shaft cavity.
